

Her Name is Lacey.

Lacey sat and barked at the wall. For hours.

Lacey was lost in a world of depression and deprivation. Nine years in a puppy mill had left her blind, malnourished, and ill with respiratory infection, skin infection and a heart condition. And it had broken her spirit and taken her mind.

Lacey was rescued and had two months of love before she died of congestive heart failure.

**In Memory of Lacey Please Help End
this Industry of Misery.**
