**2.31 (d) (1) REPEAT NCI
INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).**

? 2.31 Institutional Animal Care and Use Committee (IACUC). (d) IACUC review of activities involving animals. (1) In order to approve proposed activities or proposed significant changes in ongoing activities, the IACUC shall conduct a review of those components of the activities related to the care and use of animals and determine that the proposed activities are in accordance with this subchapter unless acceptable justification for a departure is presented in writing; Provided, however, That field studies as defined in part 1 of this subchapter are exempt from this requirement. Further, the IACUC shall determine that the proposed activities or significant changes in ongoing activities meet the following requirements:

(ii) The principal investigator has considered alternatives to procedures that may cause more than momentary or slight pain or distress to the animals, and has provided a written narrative description of the methods and sources, e g., the Animal Welfare Information Center, used to determine that alternatives were not available;

Protocol # ANS 1013: This protocol was checked again and it still does not include the time period for which the search was conducted. Also, the date that the search was conducted was not included. Two key words were used. It is recommended that the I.A.C.U.C. review this protocol again to see if the search was adequate.

To ensure the minimal use of appropriate animals, a literature search should be conducted. Policy #12 outlines the basics for a search. All the basics are not demonstrated in the protocol.
